Native American Fish & Wildlife Society
National Summer Youth Practicum
in the Southeast Region hosted by the Mississippi Band of Choctaw Indians
July 24-28, 2017
Choctaw, Mississippi

The Native American Fish & Wildlife Society is proud to sponsor its 26th annual National Summer Youth Practicum hosted by the Mississippi Band of Choctaw Indians scheduled for July 24, 2017 to July 28, 2017 in Choctaw, MS. The Practicum is designed to provide Native American high school students an opportunity to gain hands-on experience in the field of natural resources, fish and wildlife and parks management. Information on college scholarship opportunities, and environmental sciences will be discussed. During the 5-day (or week-long) program, students will stay at the Mississippi Band of Choctaw Indians reservation and will participate in field education, recreational outdoor activities, field trips, traditional methods of education, and classroom instruction. A unique aspect of the program is the use of Native American professionals who are active in their fields and Tribal elders as teachers. The Summer Youth Practicum is open to incoming 10th grade to 12th grade Native American high school students who are interested in the preservation, protection, and enhancement of tribal natural resources. Students must be in good physical condition as physical activities are a part of the Practicum. Travel Days are Monday July 24 and Friday July 28, 2017.
